

University Fairs and Virtual Events

Autumn Term 2020

These free events allow you to dip in and out of subjects and universities you are exploring without the cost of travel. The events feel quite different to a standard visit, but you will find that there are live chat options where you can ask questions of staff and students at the university.

Some of the content is flexible, once you have registered you can access anytime, others may be live and disappear after the event so check if you want to save things you find. Upcoming virtual exhibitions where you will find a range of universities and live talks are listed below.

| Date | Provider | Event Time | Event Title | To Attend |
|------------------------|----------------------|---------------|---|--------------------------|

UniTasterDays

Have launched their program for the whole Autumn Term with a range of general and subject specific sessions taking place on Tuesdays at 12:00 and 14:00. Recordings sent if you sign up online and are on the website.

To see all the sessions available visit [UniTasterDays](#)

Open Days

Universities have a huge range of virtual events, many of the open days are online to manage numbers visiting the campus, however some are running socially distanced open days.

To get the latest dates visit [OpenDays.Com](#)

Uni4Me

Holds information and sessions from a range of universities and covers topics such as is uni for me, student finance and what about an apprenticeship, as well as course talks.

Content changes as its being updated by universities. To see what is on offer visit [Uni4me](#)
