

CCTV POLICY

1. POLICY STATEMENT

- 1.1 We believe that CCTV and other surveillance systems have a legitimate role to play in helping to maintain a safe and secure environment for all our staff, pupils and visitors. However, we recognise that this may raise concerns about the effect on individuals and their privacy. This policy is intended to address such concerns. Images recorded by surveillance systems are personal data which must be processed in accordance with data protection laws. We are committed to complying with our legal obligations and ensuring that the legal rights of staff, pupils and visitors, relating to their personal data, are recognised and respected.
- 1.2 This policy is intended to assist individuals in complying with their own legal obligations when working with personal data. In certain circumstances, misuse of information generated by CCTV or other surveillance systems could constitute a criminal offence.

2. DEFINITIONS

- 2.1 For the purposes of this policy, the following terms have the following meanings:

CCTV: means fixed, PTZ and mobile cameras designed to capture and record images of individuals and property, including bikes and cars.

Data: is information which is stored electronically, or in certain paper-based filing systems. In respect of CCTV, this generally means video images. It may also include static pictures such as printed screen shots.

Data subjects: means all living individuals about whom we hold personal information as a result of the operation of our CCTV (or other surveillance systems).

Personal data: means data relating to a living individual who can be identified from that data (or other data in our possession). This will include video images of identifiable individuals.

Data controllers: are the people who, or organisations which, determine the manner in which any personal data is processed. They are responsible for establishing practices and policies to ensure compliance with the law. We are the data controller of all personal data used in the Trust.

Data users: are those of our employees whose work involves processing personal data. This will include those whose duties are to operate CCTV cameras and other surveillance systems to record, monitor, store, retrieve and delete images. Data users must protect the data they handle in accordance with this policy and our data protection policy.

Data processors: are any person or organisation that is not a data user (or other employee of a data controller) that processes data on our behalf and in accordance with our instructions (for example, a supplier which handles data on our behalf).

Processing: is any activity which involves the use of data. It includes obtaining, recording or holding data, or carrying out any operation on the data including organising, amending, retrieving, using, disclosing or destroying it. Processing also includes transferring personal data to third parties.

Surveillance systems: means any devices or systems designed to monitor or record images of individuals or information relating to individuals. The term includes CCTV systems as well as any technology that may be introduced in the future such as automatic number plate recognition (ANPR), body worn cameras, unmanned aerial systems and any other systems that capture information of identifiable individuals or information relating to identifiable individuals.

3. ABOUT THIS POLICY

3.1 We currently use CCTV cameras to view and record individuals on and around our premises at all of our schools. This policy outlines why we use CCTV, how we will use CCTV and how we will process data recorded by CCTV cameras to ensure we are compliant with data protection law and best practice. This policy also explains how to make a subject access request in respect of personal data created by CCTV.

3.2 We recognise that information that we hold about individuals is subject to the data protection legislation, including the Data Protection Act 2018 (**DPA 2018**). We are committed to complying with all our legal obligations under the DPA 1998. The images of individuals recorded by CCTV cameras in the school are personal data and therefore subject to the DPA 2018. We are a data controller and we have registered our use of CCTV with the Information Commissioner. We also seek to comply with best practice suggestions from the Information Commissioner's Office (**ICO**).

3.3 This policy covers all employees, pupils, parents, trustees governors, consultants, contractors, volunteers, interns, casual workers, zero hours workers and may also be relevant to visiting members of the public.

- 3.4 This policy is non-contractual and does not form part of the terms and conditions of any employment or other contract. We may amend this policy at any time without consultation. The policy will be regularly reviewed to ensure that it meets legal requirements, relevant guidance published by the ICO and industry standards.
- 3.5 A breach of this policy, may, in appropriate circumstances, be treated as a disciplinary matter. Following investigation, a breach of this policy may be regarded as misconduct leading to disciplinary action, up to and including dismissal.

4. RESPONSIBILITIES

- 4.1 The board of trustees has overall responsibility for ensuring compliance with relevant legislation and the effective operation of this policy. Day-to-day management responsibility for deciding what information is recorded, how it will be used and to whom it may be disclosed has been delegated to the relevant Headteachers Day-to-day operational responsibility for CCTV cameras and the storage of data recorded is the responsibility of the relevant IT departments.

5. REASONS FOR THE USE OF CCTV

- 5.1 We currently use CCTV around our schools as outlined below. We believe that such use is necessary for legitimate business purposes, including:
- (a) to prevent crime and protect buildings and assets from damage, disruption, vandalism and other crime;
 - (b) for the personal safety of staff, pupils, parents, visitors and other members of the public and to act as a deterrent against crime;
 - (c) to support law enforcement bodies in the prevention, detection and prosecution of crime;
 - (d) to assist in day-to-day management, including ensuring the health and safety of staff, pupils and others;
 - (e) to assist in the effective resolution of disputes which arise in the course of disciplinary or grievance proceedings;
 - (f) to assist in the defence of any civil litigation, including employment tribunal proceedings; and

This list is not exhaustive and other purposes may be or become relevant.

6. MONITORING

- 6.1 CCTV monitors the exterior of the building and a number of internal areas deemed necessary by the relevant Schools' Senior Leadership team and network manager. This data is recorded by motion detection or continuously recorded, dependent upon location or requirement.
- 6.2 Camera locations are chosen to minimise viewing of spaces not relevant to the legitimate purpose of the monitoring. Digital masks may be used if required. As far as practically possible, CCTV cameras will not focus on private homes, gardens or other areas of private property.
- 6.3 Surveillance systems will not be used to record sound.
- 6.4 Images are monitored by authorised personnel during school hours only and normally restricted to Senior Leadership, Heads of Year or IT personnel.
- 6.5 Staff using surveillance systems will be given appropriate training to ensure they understand and observe the legal requirements related to the processing of relevant data.

7. HOW WE WILL OPERATE ANY CCTV

- 7.1 Where CCTV cameras are placed in the schools, we will ensure that signs are displayed at the entrance of the surveillance zone to alert individuals that their image may be recorded.
- 7.2 Live feeds from CCTV cameras will only be monitored where this is reasonably necessary, for example to protect health and safety.
- 7.3 We will ensure that live feeds from cameras and recorded images are only viewed by approved members of staff whose role requires them to have access to such data. Recorded images will only be viewed in designated, secure offices by means of password authentication and IP filtering.

8. USE OF DATA GATHERED BY CCTV

- 8.1 In order to ensure that the rights of individuals recorded by the CCTV system are protected, we will ensure that data gathered from CCTV cameras is stored in a way that maintains its integrity and security.
- 8.2 Given the large amount of data generated by surveillance systems, we may store video footage using a cloud computing system. We will take all reasonable steps to ensure that any cloud service provider maintains the security of our information, in accordance with industry standards.

- 8.3 We may engage data processors to process data on our behalf. We will ensure reasonable contractual safeguards are in place to protect the security and integrity of the data.

9. RETENTION AND ERASURE OF DATA GATHERED BY CCTV

- 9.1 Data recorded by the CCTV system will be stored digitally. Data from CCTV cameras will not be retained indefinitely but will be permanently deleted once there is no reason to retain the recorded information. Exactly how long images will be retained for will vary according to the purpose for which they are being recorded. For example, where images are being recorded for crime prevention purposes, data will be kept long enough only for incidents to come to light. However, recordings are kept on a hard disk within a dedicated digital video recorder (DVR). During term time, the recordings will usually be available for a period of approximately 2 months.
- 9.2 At the end of their useful life, all images stored in whatever format will be erased permanently and securely. Any physical matter such as tapes or discs will be disposed of as confidential waste. Any still photographs and hard copy prints will be disposed of as confidential waste.

10. USE OF ADDITIONAL SURVEILLANCE SYSTEMS

- 10.1 Prior to introducing any new surveillance system, including placing a new CCTV camera in any location, we will carefully consider if they are appropriate.
- 10.2 A PIA is intended to assist us in deciding whether new surveillance cameras are necessary and proportionate in the circumstances and whether they should be used at all or whether any limitations should be placed on their use.
- 10.3 Any PIA will consider the nature of the problem that we are seeking to address at that time and whether the surveillance camera is likely to be an effective solution, or whether a better solution exists. In particular, we will consider the effect a surveillance camera will have on individuals and therefore whether its use is a proportionate response to the problem identified.
- 10.4 No surveillance cameras will be placed in areas where there is an expectation of privacy (for example, in changing rooms) unless, in very exceptional circumstances, it is judged by us to be necessary to deal with very serious concerns.

11. COVERT MONITORING

- 11.1 We will never engage in covert monitoring or surveillance (that is, where individuals are unaware that the monitoring or surveillance is taking place) unless, in highly exceptional circumstances there are reasonable grounds to suspects that criminal activity or extremely serious malpractice is taking place and, after suitable consideration, we reasonably believe there is no less intrusive way to tackle the issue.

- 11.2 In the unlikely event that covert monitoring is considered to be justified, it will only be carried out with the express authorisation of the Trust's Chief Executive Officer. The decision to carry out covert monitoring will be fully documented and will set out how the decision to use covert means was reached and by whom. The risk of intrusion on innocent workers will always be a primary consideration in reaching any such decision.
- 11.3 Only limited numbers of people will be involved in any covert monitoring.
- 11.4 Covert monitoring will only be carried out for a limited and reasonable period of time consistent with the objectives of making the recording and will only relate to the specific suspected illegal or unauthorised activity.

12. ONGOING REVIEW OF CCTV USE

- 12.1 We will ensure that the ongoing use of existing CCTV cameras in the workplace is reviewed periodically to ensure that their use remains necessary and appropriate, and that any surveillance system is continuing to address the needs that justified its introduction.

13. REQUESTS FOR DISCLOSURE

- 13.1 We may share data within the Trust and other associated companies or organisations where we consider that this is reasonably necessary for any of the legitimate purposes set out above in paragraph 5.1.
- 13.2 No images from our CCTV cameras will be disclosed to any third party, without express permission being given by the Trust's Chief Executive Officer. Data will not normally be released to third parties unless there is satisfactory evidence that it is required for legal proceedings or a court order has been produced.
- 13.3 In other appropriate circumstances, we may allow law enforcement agencies to view or remove CCTV footage where this is required in the detection or prosecution of crime.
- 13.4 We will maintain a record of all disclosures of CCTV footage.

14. SUBJECT ACCESS REQUESTS

- 14.1 Data subjects may make a request for disclosure of their personal information and this may include CCTV images (**data subject access request**). A data subject access request is subject to the statutory conditions from time to time in place and should be made in writing in accordance with the Trust's Data Protection Policy.

- 14.2 In order for us to locate relevant footage, any requests for copies of recorded CCTV images must include the date and time of the recording, the location where the footage was captured and, if necessary, information identifying the individual.
- 14.3 We reserve the right to obscure images of third parties when disclosing CCTV data as part of a subject access request, where we consider it necessary to do so.

15. COMPLAINTS

- 15.1 If any member of staff has questions about this policy or any concerns about our use of CCTV, they should speak to their manager in the first instance.
- 15.2 Where this is not appropriate or matters cannot be resolved informally, employees should use our formal grievance procedure.

Approved by The Trustee Board in March 2020
